

Block Grant EMVO-TUR, 3rd Call
Application Evaluation Results, April 2009

SUPPORTED SUB-PROJECTS					
Application code	Name of applicant	Name of sub-project	Requested sum (EUR)	Score	Approved sum (EUR)
Protection of the Environment					593 029,53
EN-09-081	Friends of the Earth-CEPA	Utilisation of Biologically Degradable Communal Waste in the Polana Region	77 058,53	94,0	77 058,53
Aim: To establish conditions for broad and effective utilisation of biologically degradable communal waste in the Polana region (primarily communal waste from households, school and restaurant eateries, local markets, gardens etc.) and secondarily as well of biological waste from agricultural production.					
EN-09-083	FSC Slovakia	Primaeval Forests Protection in Slovakia	89 959,17	91,8	89 959,17
Aim: To identify all natural forests in Slovakia: to create a database of forests with basic description and specific details of each locality as well as a map of primaeval forests of Slovakia. To realise advocation activities in order to improve primaeval forests protection and increase public awareness in the subject.					
EN-09-072	Raptor Protection of Slovakia	Implementation of the EC Bird Directive with Focus on Elimination of Bird Criminality Influencing Populations of Wild Birds in Slovakia	52 486,26	89,4	52 486,26
Aim: To decrease frequency of bird criminality cases as a negative factor influencing populations of wild birds in Slovakia. The project involves as well ensuring an immediate care of injured animals.					
EN-09-076	Friends of the Malá Fatra National Park	Animal Rescue Station	79 318,34	86,0	79 318,34
Aim: To start profesionalisation of the Animal Rescue Station in Zazriva. To prepare Eco-center for visitor presentations and ensure TV transmission of a protected species nesting.					
EN-09-051	Tatry Civic Association	Don't Separate Yourself! Separate With Us II	32 435,97	84,0	32 435,97
Aim: To improve logistics of the separated waste collection system in the Liptovský Mikuláš town and its surrounding and to create optimal conditions for waste separation in the services sector – especially by tourist businesses and public institutions. To increase public awareness and deliver enviro-educational programs for schools.					
EN-09-061	Friends of the Earth-SPZ	From Separation to Minimalisation of Waste	89 989,10	82,2	62 274,00

Aim: To increase public awareness on waste minimalisation and its re-using. To acquire data on exposure to toxic substances, especially at nursery schools and spread information on options to decrease this impact. To provide help to communities with waste separation development and composting, mainly by implementing practical solutions.					
EN-09-078	Muránska planina Non-Profit Fund	The River Without Barriers	90 000,15	81,2	90000,15
Aim: To remove the largest migration barrier on the Muráň River and thus to improve the situation in the area of European importance. As a following step, to study processes of re-population of the area by 6 fish species, enhance knowledge on the freshwater mussel <i>Unio crassus</i> occurrence as well as increase public interest in the Muráň River and Muránska planina National Park.					
EN-09-066	Association of Towns and Municipalities of Slovakia	Preparation and Application of System of Integrated Water Sources Management and Model Solutions at Municipality and Their Watershed Level	99 999,84	80,4	70 000,00
Aim: To establish local water planning and practical utilization of integrated water resources management via preparation of the Local Integrated Water Resources Management Plans.					
EN-09-068	For Nature Civic Association	Micro-regions for Nature	39 497,11	79,6	39 497,11
Aim: To ensure permanent and regular support of municipalities in the region focused on protection and management of localities with species of European importance. Thus to provide protection from biodiversity loss in environmentally valuable areas of the White Carpathian Mountains.					
Sustainable Energy					160 422,96
EN-09-090	Slovak Ornithological Society / BirdLife Slovakia	Gedrianske lúky Meadows Biomass Utilisation	70 946,00	86,4	70 946,00
Aim: To ensure sustainable management of meadows in area of 40 hectares. The processed biomass will be provided for use at a heating plant which will replace the traditional meadow management and thus as well conservation and improvement of conditions favourable for species and their biotopes at the locality.					
EN-09-053	Waldorf Private Primary School	Pilot Project of Spreading Information on RES Using a Device Installed at the School	89 476,96	84,8	89 476,96
Aim: To install a heating pump in order to achieve a practical example of functional solution of school heating. To update selected subjects with the principles of sustainable life and create a practical example of plants growing based on permaculture.					

Food Safety					136 508,00
EN-09-064	Alter Nativa Civic Association	Local, Regional and Old Cultivars in the Context of Food Safety	51 345,05	79,8	47 594,00
Aim: To create a system for saving local and regional cultivars of useful plants grown in Slovakia. To increase public awareness on the system of Community Supported Agriculture and the role of regional cultivars in the system.					
EN-09-074	Ekotrend Slovakia	From the Yard	52 486,26	74,8	36 740,00
Aim: To participate at the legislative processes related to legal sale from the yard so that the rules suite the farmers and consumers. To support regional producer-consumer chains by creation and maintaining a new web-pages. To enhance knowledge, skills and experiences by providing a lifelong course. Finally, to increase broad public awareness on bio-production.					
EN-09-054	SOSNA Civic Association	The Network of Natural Gardens in Slovakia	81 522,00	74,4	52 174,00
Aim: To support restoration and creation of healthy Natural Gardens as an important ecologic, esthetic and landscape-making feature that will make a contribution to local food self-sufficiency. To finish an open natural garden at the Educational Centre of Sustainable Alternatives of SOSNA. To establish and maintain a network of environmental NGOs and schools active in the area of organic agriculture and natural gardens, and also increase public awareness on the subject.					
Environmental Education					38 324,00
EN-09-087	Vydra – Rural Development Activity	In Čierny Balog, we Are Respectful Towards the Environment	40 060,25	89,4	38 324,00
Aim: To make a contribution to improving the state of the environment in Čierny Balog and Vydrovská dolina Valley, strengthen prevention activities in order to protect the local environment through education at all levels, as well as promote public enlightenment and relevant practical solutions.					
Total			15 sub-projects	928 284,49 EUR	

REJECTED SUB-PROJECTS

Application code	Name of applicant	Name of sub-project	Requested sum (EUR)	Score
<i>Protection of the Environment</i>				
EN-09-070	Regional Association for Nature Conservation and Sustainable Development	Protection of Forests Valuable from Nature Protection View and Support of FSC certification in Natura 2000 Sites of Malé Karpaty Protected Landscape Area	74 925,00	79,2
